

RAZOR BACK™

PRODUCT LINEUP

Introducing the RazorBack lineup

Built on Arctic's sectional technology, the same tech previously reserved for Arctic heavy equipment attachments, like the Sectional Sno-Pusher™ and Sno-Wing™, the RazorBack is transforming the truck plow industry. Delivering the most significant advancements in truck plows in decades, Arctic isn't just in the game; we're shaping its future. It's time for a new era of innovation, and the RazorBack is leading the way.

RAZORBACKPLOW.COM

FEATURES AND SPECS

Arctic Sectional Technology

- Independent sectional moldboards
- Forgiving, impact absorbing polyblock design
- AR400 cutting edges
(Hardox 450 standard on RazorBack Wing)

Free Floating Wings *(Only for the RazorBack Wing Retrofit Kit)*

- Hydraulically adjustable between transport, plow and scoop mode
- Floating - AR400 spring-loaded tripping cutting edge on each wing, that conform to the pavement and scrapes to the ground.
