Genuine Parts
for maximum
performance,
durability and
safety

Comfort, easy operation, and all the power you need.

Kubota's next-generation R540 and R640 wheel loaders are built to get the job done quickly, easily, and efficiently. They're built for comfort, with a new, high-visibility cabin. They're also built for simple and productive operation, even by operators with novice experience. And they're built for performance, with enhanced productivity features and power to spare.

KUBOTA WHEEL LOADER

R540/R640

OPERATOR COMFORT / EASE OF USE

Redesigned inside and out, both the R540 and R640 wheel loaders boast a fully enclosed glass cabin for improved visibility, as well as a more ergonomic control layout.

A Full-suspension seat

A full-size, full-suspension adjustable seat enhances operator comfort. The padded seat can be moved forward or back for optimum comfort.

B Adjustable right wrist rest

This feature reduces fatigue by reducing arm movement and allowing you to more easily operate the hand lever.

C Tilt steering

With the flick of a lever, the steering wheel can be tilted up or down to the most comfortable and efficient position for operators of all sizes.

Full opening right window

The window on the right side of the cabin opens fully to improve ventilation as well as communication with workers outside.

New interior design

The spacious cabin's ergonomic layout is designed to keep you working comfortably from start to finish.

Air conditioning

A powerful heating/cooling system and eleven vents provide optimum comfort on the coldest winter and hottest summer days.

High-visibility cabin

Fully enclosed in glass, the high-visibility cabin offers the operator a panoramic perspective of the environment outside, with the pallet fork tips clearly visible from the driver's seat. The full glass door, and wide opening window provide excellent visibility to the left and right, while the rear window offers an unobstructed view when traveling in reverse.

ROPS/FOPS cab and canopy

Manufactured and attached at the Kubota factory, both the Roll-Over Protective Structure (ROPS) and Falling Object Protective Structure (FOPS) meet the applicable ISO, SAE standards and OSHA regulations.

PERFORMANCE

Long reach and excellent lifting power ensure superior performance for a wide range of loader tasks.

R540: 2965 lbs
R640: 3406 lbs
 (Max. payload 50%, bucket)

Above figures are based on the machine with wide tires and SSL type quick coupler.

Working range

A long reach and high clearance make all types of material handling jobs easy. The high clearance lets you load trucks with ease, while the superior reach makes pallet fork operations faster and more efficient.

Arm tilt / Parallel movement

Transporting a fully loaded pallet with the pallet fork, Kubota's arm tilt/parallel movement structure keeps the load upright and steady, even while raising or lowering the lift arm.

Powerful lifting capacity

An improved lifting force provides smooth operation for both R540 and R640, while lifting and handling material in a variety of applications.

Multi-function operating lever

All major loader functions are on a single lever that is easy to operate with just one hand, both on the R540 and R640. The 2-step speed control switch lets you quickly change speeds, allowing you to operate at optimum efficiency for the task at hand.

- A Speed control switch (up)
- B Speed control switch (down)
- C Direction switch
- D AUX port variable switch
- E Neutral switch
- F Differential lock switch

R540:
10' 7" (3230 mm)

R640:
10' 8" (3255 mm)

Kubota original DI engine with CRS and DPF muffler

The new Kubota's V2607 direct-injection engine is equipped with CRS and with a new and improved DPF which reduces maintenance by increasing the service intervals for both the regeneration filter and ash cleaner.

GROSS ENGINE OUTPUT

R540: 50.9 HP

R640: 64.3 HP

Differential lock (100% On demand, front & rear)

Should the wheels start to slip, simply press the differential lock switch to immediately engage both front and rear wheels. The result is positive slip-free traction.

SERVICE

Simple maintenance ensures that your R540 and R640 loaders are productive.

Easy maintenance

The engine bonnet at the rear opens wide, providing quick and easy access to the machine's main service areas. Items that require routine maintenance and service are within easy reach for fast and simple servicing. Quick-open panels on the right and left sides provide speedy access to the fuel refill (right side) and battery (left side). Other areas of the R540 and R640 are also easy to service and maintain.

- A** DUAL ELEMENT AIR CLEANER
- B** BATTERY
- C** DIESEL PARTICULATE FILTER (DPF) MUFFLER
- D** WASHER TANK
- E** FUEL FILTER
- F** WATER SEPARATOR
- G** RESERVE TANK

New LED work lights

Bright LED work lights provide plenty of illumination for nighttime tasks.

Easy transportation

With an overall height of 8'2" or less, the R540 and R640 fit easily under road bridges for fast and efficient transportation between job sites. Six tie-down points allow simple yet secure attachment to a truck bed for safety during transportation.

Digital diagnostic indicators

A bright easy-to-read digital diagnostic indicator keeps you fully informed of critical loader and engine conditions.

■ Error display

Hydraulic oil temperature has reached a specified level	Meter ECU communication error	Parking brake error	Fuel sensor system error

Standard equipment

Safety

- 6 Tie down points
- Lift arm support
- Towing pin

Working equipment

- 2 Head lights (Headlights and Signal Lights)
- Rear combination lights (Turn signal, Tail light, Brake light, Backup light)

Operator's space

- Canopy (ROPS / FOPS Level1)
- Weight-adjustable suspension seat (PVC seat) with left arm rest and back rest
- Retractable seatbelt
- Adjustable right wrist rest
- Digital panel with diagnostic function
- Side mirrors
- 12V power outlet
- Tool storage space - Canopy models
- Tilt steering
- Cup holder

Engine/Fuel system

- KUBOTA original engine
- Double-element air cleaner

- Fuel level indication buzzer
- Fuel / water separator
- Separate fuel filter

Travel system

- Differential lock (100% on demand, front and rear)
- Wet type disc brake
- Negative brake (parking brake)
- Wide tire (R540: 365/70R18 / R640: 405/70R18)

Hydraulic system

- Hydrostatic transmission
- Multi-function operating lever with AUX proportional control
- Hydraulic lock switch
- Inching and brake pedal (left)
- Hydraulic quick coupler switch
- Loader float switch

Others

- Maintenance free battery
- Grease gun holder
- Radio ready

Optional equipment

- Cab with air conditioner
- Inching and brake pedal (right)
- Kubota Shockless Ride (KSR)
- Tool box for cab models
- Rear working LED lights
- Various buckets and other attachments
- Block heater
- 3" retractable seat belt
- Hydraulic Euro-type coupler
- Hydraulic SSL-type coupler
- Mechanical SSL-type coupler
